

Lesson 5: Broadcast More

I can use broadcast in my program to make Ohbot do several things at the same time

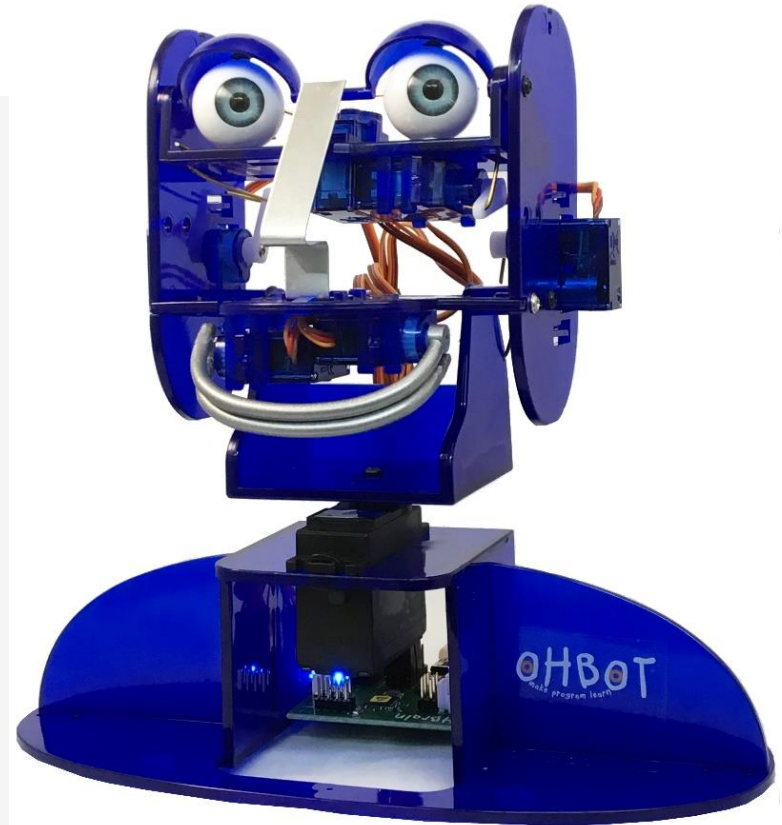

Demonstration

```

when clicked
broadcast head and wait
  
```

```

when I receive head
say Watch me nod my head until done
wait 1 secs
say I can move my head up until done
set HeadNod to 10
say and down until done
set HeadNod to 0
wait 2 secs
set HeadNod to 5
say WATCH! can also shake my head until done
set HeadTurn to 0
say Turn right until done
set HeadTurn to 10
say and left until done
set HeadTurn to 5
wait 2 secs
  
```

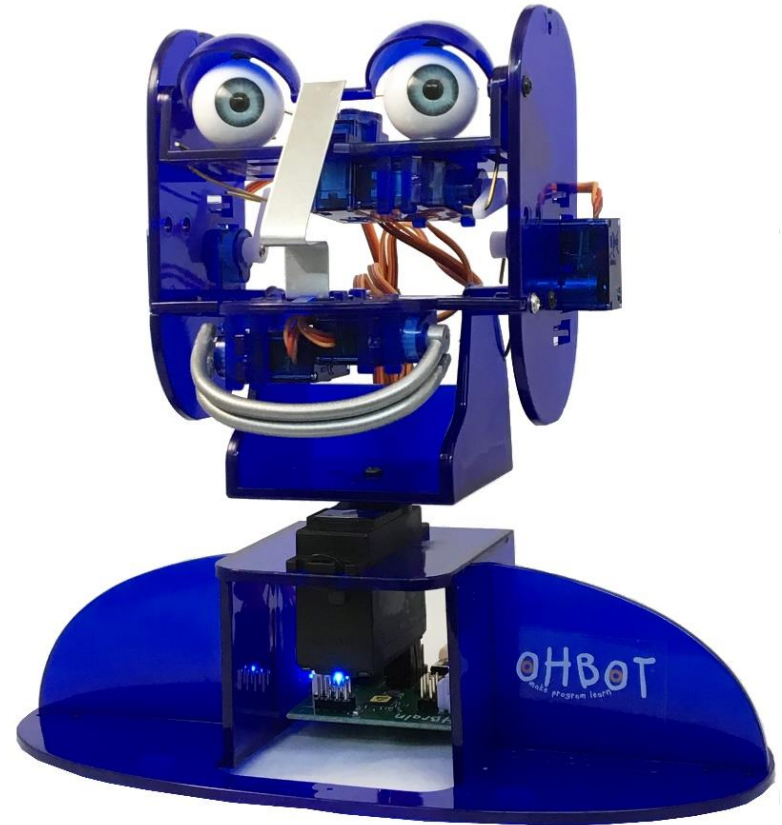

Activity 1

Can you add to your code?

Next broadcast lips

Then broadcast eyes

Activity 1 Example

```

when clicked
broadcast head and wait
broadcast lips and wait
broadcast eyes and wait
  
```

Here is a skeleton program. The program broadcasts 3 messages. You need to complete the code for each message.

```

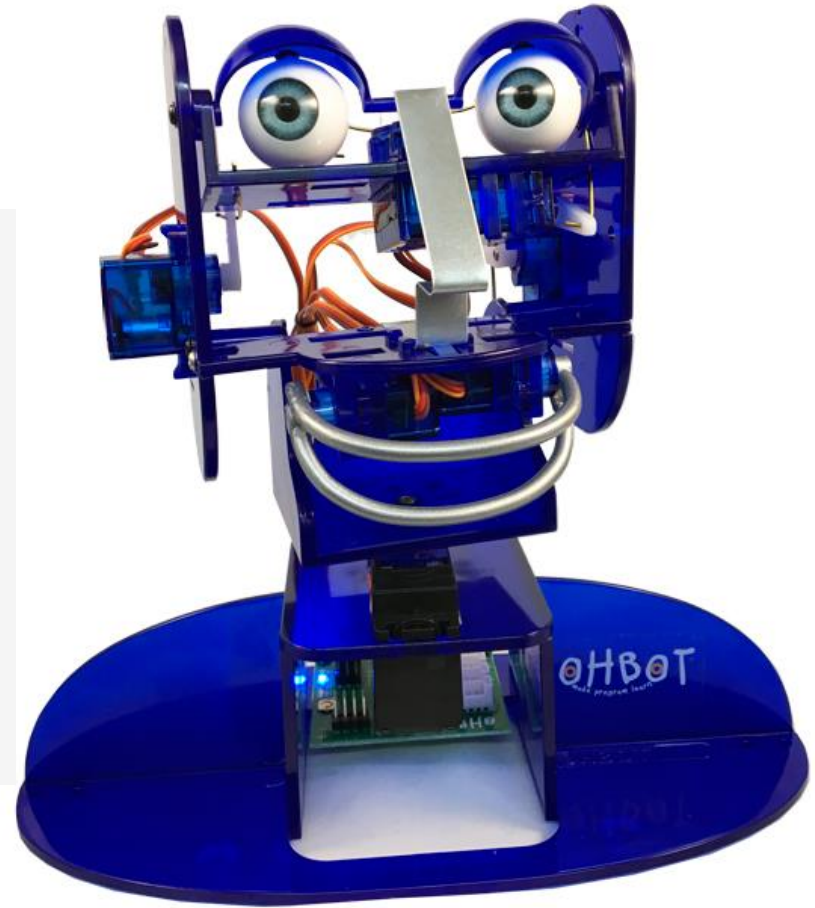

when I receive head
say Watch me nod my head until done
  
```

```

when I receive lips
say Watch me move my lips until done
  
```

```

when I receive eyes
say Watch me move my eyes until done
  
```

Extension

Can you add to your program?
Can you broadcast "welcome" at
the start of your program?
Welcome needs to introduce
Ohbot.
